Policy #: 506

Name of Policy: Student Discipline

Adoption Date: December 2025

Updated:

I. PURPOSE

The purpose of student discipline is to: prevent or minimize harm to the student and others; minimize disruption to the learning and working environments; and ensure that students are held accountable for their actions to the extent their behavior was knowing and intentional, unsafe or dangerous and/or in violation of the Student Conduct Procedure, Board policy, or the law. The purpose of this policy is to articulate the school board's commitment to professional development for employees designed to result in: the use of discipline only when other corrective actions are not effective and/or practicable; equity in student discipline; and the use of non-exclusionary discipline whenever possible.

Effective responses to student misconduct consider the age and cognitive development of the student and include: framing instruction and coaching to the needs of the particular student; building or strengthening relationships; repair of harm; restorative practices designed to restore relationships, and re-engage students in the learning community. Effective discipline is educational, not punitive.

II. GENERAL STATEMENT OF POLICY

The school board recognizes that individual responsibility and mutual respect are essential components of the educational process. The school board further recognizes that nurturing the maturity of each student is of primary importance and is closely linked with the balance that must be maintained between authority and self-discipline as the individual progresses from a child's dependence on authority to the more mature behavior of self-control.

All students are entitled to learn and develop in a setting which promotes respect of self, others, and property. Proper positive discipline can only result from an environment which provides options and stresses student self-direction, decision-making, and responsibility. Schools can function effectively only with internal discipline based on mutual understanding of rights and responsibilities.

Students must conduct themselves in an appropriate manner that maintains a climate in which learning can take place. Overall decorum affects student attitudes and influences

student behavior. Proper student conduct is necessary to facilitate the education process and to create an atmosphere conducive to high student achievement.

Although this policy emphasizes the development of self-discipline, it is recognized that there are instances when it will be necessary to administer disciplinary measures. The position of the school district is that a fair and equitable district-wide student discipline policy will contribute to the quality of the student's educational experience. This discipline policy is adopted in accordance with and subject to the Minnesota Pupil Fair Dismissal Act, Minnesota Statutes, sections 121A.40-121A.56.

In view of the foregoing and in accordance with Minnesota Statutes, section 121A.55, the school board, with the participation of school district administrators, teachers, employees, students, parents, community members, and such other individuals and organizations as appropriate, has developed this policy which governs student conduct and applies to all students of the school district.

III. PROCESS

The Executive Director is directed to develop administrative Procedure and Processes for the School that meet the state and federal requirements established in law or rule.
